PIPER PARTS CATALOG

AEROFICHE EXPLANATION

The Parts Catalog information incorporated in this set of Aerofiche cards has been arranged in accordance with the general specifications of Aerofiche adopted by the General Aircraft Manufacturer's Association.

Conversion of Aerofiche alpha/numeric code numbers:

First number is the Aerofiche card identifier.

Letter is the horizontal line reference per card.

Second number is the vertical line reference per card.

Example: 2J16=Aerofiche card number two of given set. Grid location J16.

To aid in locating the various sections and related information desired, the following is provided:

A complete Catalog Table of Contents is given at Grid 1A7 of Aerofiche card number 1 of this set. Each additional card in this set will have a Table of Contents for all sections on that particular card. This table will start at Grid A3.

REVISIONS

The information compiled in this Aerofiche Parts Catalog will be kept current by revisions distributed periodically. These revisions will supersede all previous revisions and will be complete Aerofiche card replacements and shall supersede Aerofiche cards of the same number in the set.

Current Revisions to the PA-30 and PA-39 Parts Catalog issued February 1973 are as follows:

753 646 (PR770211).....	Dated February 1977
753 646 (PR800514).....	Dated May 1980
753 646 (PR820910).....	Dated September 1982

NOTE: Refer to the last card of the Piper - Parts Price List - Aerofiche for a check list of current revision dates and card effectivities for this parts catalog.

INTRODUCTION

This illustrated Parts Catalog is designed to provide simple but positive identification of replacement parts for the Piper "TWIN COMANCHE" Models PA-30 and PA-39, manufactured by the Piper Aircraft Corporation of Lock Haven, Pennsylvania.

NOTE: UNDER NO CIRCUMSTANCES SHALL THIS CATALOG BE USED FOR RIGGING AND INSTALLATION PURPOSES.

It is suggested that this catalog be thoroughly studied to determine its arrangement prior to its utilization.

1. The catalog is divided into ten (10) major sections described as follows:
 - a. Sections I to IX inclusive contains all replacement parts for the completed airplane. Each section is subdivided and each division includes an illustration and a parts listing.
 - b. Section X is the Miscellaneous Group. This group includes a listing of the Optional Equipment Kits, Repair Kits and Special Tools.
2. The following is a brief explanation of the columns in the parts listing:
 - a. The "FIGURE AND INDEX" column indicates the illustration figure number and its part index number. Example: (2-1), the 2 is the figure number and the 1 is the index number. The figure number appears only at the top of each parts listing page or at the beginning of each new parts listing.
 - b. The "PART NUMBER" column contains the identifying number of the replacement part and this number must be shown on all Parts Orders.
 - c. The "CODE" column is for the purpose of indicating special uses of the part. An explanation of the letter code used is shown below each listing.
 - d. The "NOMENCLATURE" column indicates the part name. This name must be shown on all Parts Orders.
 - e. The "NO. REQ." (Number Required) column represents the total quantity of parts used per aircraft per figure when the part is not indented and the quantity of parts used per assembly when the part is indented. The symbol "AR" listed in this column means "As Required."
 - f. The "SERIAL NUMBERS AFFECTED" column indicates the part application by airplane serial number.

Indentation Example: Indentations of listings in the "Nomenclature column" indicates "assemblies" and "components" or "parts," in order of their indentations.

Figure and Index Number	Part Number	Code	NOMENCLATURE	No. Req.	SERIAL NUMBERS AFFECTED
			DOOR ASSEMBLY - Baggage compartment	1	
			• FRAME ASSEMBLY - Baggage compartment door	1	
			• • HINGE ASSEMBLY - Baggage door	1	
			• • CLIP - Baggage door spring	1	

This listing is interpreted as follows:

If the DOOR ASSEMBLY (not indented) is ordered, it will include the three items listed under that item.

If the FRAME ASSEMBLY (indented one space) is ordered, it will include the two items listed under the subassembly.

If you want only a HINGE ASSEMBLY or CLIP, you order only that item.

3. The "ATTACHING PARTS" such as nuts, bolts, screws, etc., that are available as commercial hardware items, are not generally supplied by the Piper Aircraft Corporation. The catalog lists, for your convenience, those attaching parts required for main assemblies and installations. The identifying number for these parts appears after the part name.

4. All items of Optional Equipment are contained in the parts list in their proper sequence and sections. These items were not marked optional, since they are fully identified by their descriptions.

HOW TO IDENTIFY A PART
IF YOU KNOW WHAT IT LOOKS LIKE
AND KNOW WHERE IT IS LOCATED

- (1) Refer to Figure 1 to determine the section number in which the part is used.
- (2) Refer to the Table of Contents and locate the section. Note the figure numbers that illustrate the various subgroups of this main section.
 - (a) Select the figure title you think might contain the part you wish to identify and turn to the grid (page) specified.
- (3) Find the part on the illustration and note the index number.

NOTE: If you don't find the part on this illustration, try another figure in this group.

- (4) Refer to the "Figure and Index Number" in the Parts Listing for complete description of the part.

HOW TO ORDER PARTS

In ordering parts for your Piper Airplanes, observe the following instructions which will aid in your getting the right parts required without delay.

- a. Place your order with the distributor or dealer for your territory, since parts are available only through our distributor organization.
- b. Always specify the model and serial number of your airplane.
- c. Always specify part number, name, type and quantity required.
- d. Specify the method of shipment, freight, express, parcel post, air express, air freight or air parcel post.

Where the nature of the shipment requires it or when no instructions are given, we reserve the right to ship the most suitable way.

GENERAL INFORMATION

a. Shortages

All orders are checked and rechecked before leaving our Shipping Department. A packing slip is enclosed with the shipment and claims for errors or shortages must be made within three days after receipt of orders.

b. Returned Goods

No material should be returned to us without first securing our written permission. Material sent in without notice will be held at the owner's risk for thirty (30) days and will then be disposed of as we see fit.

Transportation charges must be PREPAID on returned goods or the shipment will be refused.

c. Transportation Liabilities

The Piper Aircraft Corporation cannot be held liable for damages to parts in transit from the factory. If a shipment is received in a damaged condition, have the delivery man or Transportation Company make a notation of the damage and file your claim with the Carrier. In case of concealed damage, do not attempt to remove the part from the shipping container or endeavor to repair the damage, but call the Carrier and have his Claim Agent inspect the damage before filing your claim with the Carrier.

PA-30 AND PA-39 SERIAL NUMBERS INFORMATION

The following information should be kept in mind when ordering from this catalog:

- a. The serial numbers of the aircraft covered by this Parts Catalog are as follows:
- (1) Serial numbers of the 1963 PA-30 Models are 30-2 to 30-142 inclusive.
 - (2) Serial numbers of the 1964 PA-30 Models are 30-143 to 30-627 inclusive.
 - (3) Serial numbers of the 1965 PA-30 Models are 30-628 to 30-852, 30-854 to 30-901 inclusive.
 - (4) Serial numbers of the PA-30 Model "B" are 30-853, 30-902 to 30-1716, 30-1718 to 30-1744 inclusive.
 - (5) Serial numbers of the PA-30 Model "C" are 30-1717, 30-1745 to 30-2000 inclusive.
 - (6) Serial numbers of the PA-39 Model are 39-1 to 39-155 inclusive.

A - If Kit 756 909 has been installed, order part for PA-30 with serial numbers 30-825 and up, and PA-39 with serial numbers 39-1 and up.
 B - Used on PA-30 with serial numbers 30-2 to 30-824 inclusive if Kit 756 909 has been installed.
 C - Used on PA-30 with serial numbers 30-825 and up, and PA-39 with serial numbers 39-1 and up.
 D - Used on PA-30 with serial numbers 30-1401 to 30-1716 inclusive, 30-1718 to 30-1744 inclusive.
 Y - Used on PA-30 airplanes only.
 Z - Used on PA-39 airplanes only.

When ordering, always specify Part Number, Description and Serial Number of Aircraft

- A - Used on PA-30 with serial numbers 30-1717, 30-1745 and up, and PA-39 with serial numbers 39-1 and up.
- B - Used when Dual Tachometer is installed.
- C - Used when AutoControl III and Radio Coupler are installed.
- D - Used when AltiMatic III is installed.
- E - Used on PA-30 with serial numbers 30-1781 and up, and PA-39 with serial numbers 39-1 to 39-6 inclusive.
- F - Used on Turbocharged Aircraft.
- G - Not used when Turbocharger is installed. Refer to RaJay Corporation Parts Catalog.
- H - Used when AutoControl III is installed.
- J - Used when AutoControl III or AltiMatic III with Giar Ban Lights is installed.
- K - Used on PA-30 with serial numbers 30-1717, 30-1745 and up, and PA-39 with serial numbers 39-1 to 39-145 inclusive.
- L - Used when AltiMatic III B is installed.
- M - Order Placard 33438-00 for PA-30 with serial numbers 30-1717, 30-1745 to 30-2000 inclusive, and PA-39 with serial numbers 39-1 to 39-145 inclusive, if Alternator Warning Light Installation Kit 760 744 has been installed.
- N - Used with Rochester Gauge Instrument Cluster Assembly only. If A. C. Spark Plug instruments are installed, order Instrument Cluster Replacement Kit 764 432 which contains a new Rochester Gauge Instrument Cluster Assembly complete with all instruments.
- Y - Used on PA-30 airplanes only.
- Z - Used on PA-39 airplanes only.

When ordering, always specify Part Number, Description and Serial Number of Aircraft

A - Before ordering new ignition vibrator, ascertain ignition assembly part number stamped on ignition assembly cover. If Janitrol No. D08D50 is stamped on ignition assembly cover, order new ignition assembly P/N 752 108 as a replacement. If Janitrol No. 81D12-5 or 81D12-5M, 92D12-4 or 92D12-4M, or 91E12-4 is stamped on ignition assembly cover, order ignition vibrator P/N 756 577 only.

When ordering, always specify Part Number, Description and Serial Number of Aircraft

A - Used on main gear strut only.
 B - Used on nose gear strut only.
 C - Used on PA-30 with serial numbers 30-1717, 30-1745 and up, and PA-39 with serial numbers 39-1 and up.
 D - Order part for PA-30 with serial numbers 30-1199 and up if shimmy dampener incorporates a self aligning end bearing.
 E - Sold by foot length.
 Y - Used on PA-30 airplanes only.
 Z - Used on PA-39 airplanes only.

When ordering, always specify Part Number, Description and Serial Number of Aircraft

- A - Used with Propeller Assembly HC-E2YL-2.
- B - Used with Propeller Assembly HC-E2YL-2A.
- C - Used with Propeller Assemblies HC-E2YL-2()/7663-4 and HC-E2YL-2BL/J7663-4 only.
- D - Used on PA-30 with counter-rotating right engine.
- E - Used with Propeller Assembly HC-E2YL-2BLSF/FJ7663-4.
- F - Used with Propeller Assembly HC-E2YL-2B.
- G - Used with Propeller Assembly HC-E2YL-2B with propeller serial numbers BG-1 to BG-3572 inclusive.
- H - Used with Propeller Assembly HC-E2YL-2B with propeller serial numbers BG-3573 and up, and Propeller Assemblies HC-E2YL-2BS, HC-E2YL-2BL and HC-E2YL-2BLS.
- J - Used with Propeller Assemblies HC-E2YL-2()/7663-4, HC-E2YL-2BS/7663-4, HC-E2YL-2BS/J7663-4 and HC-E2YL-2BLS/J7663-4 if fork unit 751 820 has been replaced with fork unit 754 826.
- K - Used with Propeller Assemblies HC-E2YL-2BSF/F7663-4 and HC-E2YL-2BLSF/FJ7663-4.
- L - Used with Propeller Assembly HC-E2YL-2()/7663-4.
- M - Used with Propeller Assembly HC-E2YL-2BSF/F7663-4.
- N - Used with Propeller Assemblies HC-E2YL-2BL/J7663-4 and HC-E2YL-2BLS/J7663-4.
- P - Used with Fork Unit B-2457-2 only.
- Y - Used on PA-30 airplanes only.
- Z - Used on PA-39 airplanes only.

When ordering, always specify Part Number, Description and Serial Number of Aircraft

The information contained in this manual is periodically revised. Piper Aircraft Corporation urges all users of this manual to keep it current. Contact your nearest Piper Aircraft Corporation distributor to arrange for a subscription to future revisions.

NOTE

Revision service is available in microfiche format only.

PIPER PARTS CATALOG

AEROFICHE EXPLANATION

The Parts Catalog information incorporated in this set of Aerofiche cards has been arranged in accordance with the general specifications of Aerofiche adopted by the General Aircraft Manufacturer's Association.

Conversion of Aerofiche alpha/numeric code numbers:

First number is the Aerofiche card identifier.

Letter is the horizontal line reference per card.

Second number is the vertical line reference per card.

Example: 2J16=Aerofiche card number two of given set. Grid location J16.

To aid in locating the various sections and related information desired, the following is provided:

A complete Catalog Table of Contents is given at Grid 1A7 of Aerofiche card number 1 of this set. Each additional card in this set will have a Table of Contents for all sections on that particular card. This table will start at Grid A3.

REVISIONS

The information compiled in this Aerofiche Parts Catalog will be kept current by revisions distributed periodically. These revisions will supersede all previous revisions and will be complete Aerofiche card replacements and shall supersede Aerofiche cards of the same number in the set.

Current Revisions to the PA-30 and PA-39 Parts Catalog issued February 1973 are as follows:

753 646 (PR770211).....	Dated February 1977
753 646 (PR800514).....	Dated May 1980
753 646 (PR820910).....	Dated September 1982

NOTE: Refer to the last card of the Piper - Parts Price List - Aerofiche for a check list of current revision dates and card effectivities for this parts catalog.
